THE CONFERENCE

The 2020 Active Living Conference is the premier venue for policy-relevant research and cross-sector exchange among scientists, practitioners, and policy makers on how to study, create and sustain active living environments. The conference agenda will have two focus areas: 1) research (building the evidence), and 2) practice/policy (using evidence).

The 2020 Active Living Conference theme, Innovation and Imagination in Active Living, challenges us to be creative and to consider unique research approaches, partnerships and innovative strategies that promote fun and healthy opportunities for active living. Topics might include innovation by design, creative use of big data, health and nature, creative active play, interactive art, sport and health, technology, innovation in measurement, novel approaches in research translation and dissemination, and effective "non-traditional" partnerships. These and other creative and "magical" topics would fit the theme of this conference.

TOPICS INCLUDE

- Active transportation
- Aging in place
- Building partnerships
- Economic benefits
- Health equity
- Parks and recreation
- Physical activity
- Policy and environmental strategies
- Public health
- Research translation
- Rural environments
- School policies and environments
- Tools and measures of active environments
- Urban planning for healthy communities
